Resumé

C.L.J. Braun, MD,

first name Chris. Date of birth: 13 September 1949.

Registered toxicologist (NvT, Eurotox).

Languages: Dutch (native); English (fluent) German (good passive use, halting active use), French (good passive use, poor active use).

Current activities:

self-employed consultant, specializing in REACH, regulatory and occupational toxicology.

Past employment:

2001-2009: Senior toxicologist in Akzo Nobel's Safety, Health, Regulatory affairs Services department. Tasks: Initiating and monitoring of toxicological tests, evaluating existing data on industrial chemicals, advice on safe use. Supervision of notification of new chemicals. Strong involvement in the implementation of REACH in all Akzo Nobel Business Units, including technical advice to many consortia.

1989-2001: Staff advisor at Akzo Nobel's central department for Health. Tasks: Involvement in setting up, expanding and providing toxicological support for the businesses, as well as occupational hygiene services for the Dutch sites. Responsible for the toxicology of respirable fibers for the Akzo Nobel fibers group, (in particular the p-aramid fibers), as well as the toxicology of carbon disulfide. Involvement in the development and execution of an in-house HSE audit program. Support to occupational health services, specifically in relation to effects of industrial chemicals. Representation of Akzo Nobel in CEFIC sector groups and other business associations. Member of ECETOC Scientific Committee.

1979-1989: Occupational physician in Akzo Nobel Fibers (ENKA). Registered occupational Physician (registration now canceled).

1977-1979: Occupational physician & municipal forensic physician, City of Arnhem.

1976-1977: Training and registration as General Practitioner (registration now canceled)

1967- 1976: Medical studies, University of Utrecht.
